Describe each in brief detail
Pose Questions to group
- 8:45 Roundtable Questions and Advice on Challenges (by Subgroups)
- 9:15 Next Meeting (Host City, Location and Suggested Topics)
- 9:30 Adjourn

Directions

Travel via Interstates 495 & 270, MD Route 355 (aka *Rockville Pike*) or MD Route 198/28

If traveling on Interstate 270,

- Exit on Falls Road (Exit 5) (the road will quickly become Maryland Ave).
- Travel about .7 miles and turn right on East Jefferson (aka State Route 28) just past the Montgomery County Council building. There is a traffic light at this intersection.
- Cross Rockville Pike (MD Route 355). The road changes names and becomes Veirs Mill Road (aka State Route 586 and Route 28).
- Turn at the first left onto First Street (which remains State Route 28). There is a traffic light and turning lanes at this intersection.
- Turn at the fourth right (there is a traffic light here too) onto Baltimore Road.
- Baltimore Road forks at the fourth intersection (no stop sign or traffic light). Take the small left fork - Avery Road - up the hill.
- The Nature Center will be the first structure you see on the right side of the road **(240) 314-8770**

If traveling on State Route 355/Rockville Pike, turn eastbound onto Veirs Mill Road (State Route 586) near downtown Rockville and follow the directions above starting at the fourth bullet.

If traveling west on Route 198/28 from Laurel, take Route 198 from Burtonsville to Rockville. The route becomes Route 28 along the way.

- After passing Gude Drive on your right, take the next left turn onto Baltimore Road (there is a traffic light at both intersections).
- Baltimore Road forks at the fourth intersection (no stop sign or traffic light). Take the small left fork - Avery Road - up the hill.
- The Nature Center will be the first structure you see on the right side of the road **(240) 314-8770**
